

Mound Installation with Site and Soils Evaluation Field Training – Saskatoon Region

Onsite wastewater practitioners will have the opportunity to participate in a mound installation just outside Saskatoon city limits on September 25. Participants will observe and engage in the evaluation of a soils pit on the site, followed by the construction of a mound being built to replace an already existing mound in a state of failure. Take advantage of this opportunity to learn more about both soils assessment and mound construction using linear loading.

September 25, 2018

Contact the SOWMA office to register: 306-988-2102
or go online: <http://www.sowma.ca/training/public-field-training/>
