## Request for Articles

The association is sourcing articles for publication in our WCOWMA family of newsletters, and our printed magazine. Newsletters are published monthly, and magazines are published twice per year. Both include information, news and events from each Western province.

Articles submitted may be on any topic relevant to our membership and stakeholder group, such as those related to wastewater, septage and the onsite wastewater industry. Article length should be between 200 to 500 words for the newsletter and 800 to 1,500 words for the magazine. In both cases the article should be research or case study based. Relevant pictures are welcome; a photo release may be required. Promotional articles or those that are heavily proprietorial are considered advertorial and are subject to advertising rates. These will be identified in the publications as advertorials.

Banner and feature advertising is also now available in our newsletter – please contact the association office more information.

WCOWMA newsletters and magazines are distributed to over 5000 onsite wastewater stakeholders across Western Canada.

Articles may be submitted to [info@wcowma.com](mailto:info@wcowma.com). The deadline for each newsletter is the 15th of each month. Articles submitted may be published immediately or held for future publications.
