

## Septic Awareness Week - September 16 - 20, 2019

Join your industry association in Septic Awareness Week.

The Western Canada Onsite Wastewater Management Association and its affiliates will be promoting septic awareness during the week of September 16 to 20. The purpose of this initiative is to promote proper operation and maintenance of onsite wastewater systems.

Notices will be put up on our websites and in local newspapers about the importance of maintaining septic systems along with tips for operation. In some regions of Western Canada, delivery of our Septic Sense program will take place during that week.

Join us in asking your customers, regulatory authorities and municipal representatives – **Do you have Septic Sense?**

Contact the association office for materials to hand out to your customers!

## Nominate Your Favourite Pumper!

Anyone that works in the liquid waste industry can tell you it isn't the easiest way to make a living. Hug A Pumper is a free initiative to recognize the people in this industry and to show them that their work is appreciated.

It costs nothing to nominate your favorite pumper, and you can nominate as many (of your favorite) pumpers as you'd like.

### Why Appreciate Pumpers

- Long hours and weekends are generally required
- Takes dedication and hard work
- Lots of manual labor is necessary
- They do the dirty work, literally
- Provide a vital public health service

Your favorite pumper will be entered in the drawing to win a 50-inch flat screen TV and could be featured in the HugAPumper.com Hall of Fame!

Nominate your favorite pumper today: <https://www.hugapumper.com/>
