

## Septic Awareness Week

Earlier this month people from across the western provinces came together to participate in Septic Awareness Week, which promoted the proper maintenance of septic systems. Rural municipalities, real estate agents, and companies throughout all four provinces shared tips with onsite wastewater stakeholders and homeowners.

Plans to expand Septic Awareness Week activities in 2020 are already underway, in the meantime, information is available on proper operation and maintenance of onsite wastewater (septic) systems from the association office or on our website.

## Onsite Wastewater Practitioner Training

The Saskatchewan Onsite Wastewater Management Association is waitlisting candidates interested in becoming certified for onsite wastewater design and installation. The training SOWMA offers is recognized in the Western Provinces through Alberta Municipal Affairs and the New West Partnership Agreement (formerly TILMA). It is recognized federally through the Agreement on Internal Trade.

Plans are to host this training in January in the Regina region. Anyone interested in participating in this training should contact the association office at 306-988-2102 or toll free at 855-872-2650. You may also email [adrienne@sowma.ca](mailto:adrienne@sowma.ca)

Get your name on the list for this training now and begin preparing for the training this winter!
